

ACADEMIC ACHIEVEMENTS

The GCE N Level results were released on 19 December 2019, while the GCE O Level results for 2019 were released on 13 January 2020.

Our school has continued to deliver value-added results and our students have done the school proud by maintaining a high level of progression to post-secondary school institutions. Our Sec 4 Express students have done well in achieving a high percentage eligibility for polytechnic and junior college. Likewise, our Sec 4 Normal (Academic) and Sec 4 Normal (Technical) students have achieved a high level of GCE N Level passes.

We would like to thank all the teachers and non-teaching staff for helping our N Level and O Level students over the past four to five years. This support has been crucial to helping them achieve credible results and be able to progress to the next stage of their education.

We congratulate all our graduating students and wish them all the best for their future endeavours.
